

ADDITIVES INC.

Water Treatment Products

Additives Inc. developed the formulations for our water treatment products based on the latest available technology and continue to keep them up-to-date with our modern laboratory facilities. All of our water treatment products are biodegradable, environmentally compatible and have low health hazard ratings. Additives Inc.'s water treatment products are manufactured at its plant in Denver under a strict quality control program. We monitor our customers' steam and water systems both by analyzing samples in our lab and by testing in the field upon request.

Evaporator Coil Cleaner Benefits

Economical - mix one part Evaporator Coil Cleaner to four parts water.

Safer than acid cleaners.

Cleans coils in one step - no rinsing needed.

High foaming for faster penetration.

Evaporator Coil Cleaner

Product Description and Applications

Evaporator Coil Cleaner is a special blend of effective ingredients designed to penetrate and remove built-up grease, dirt and oxidation from finned coils, cleaning in one step. Evaporator Coil Cleaner DOES NOT CONTAIN ACID.

Product Specifications

Appearance	Greenish-yellow
Odor	Lemon scent
Solubility in Water	Complete
Specific Gravity	0.990-1.000
pH (1%)	10.3-10.5

Proper Use for Health and Safety

Use Instructions:

1. Protect eyes and skin with appropriate safety items.
2. May be used with unit on or off.
3. Use low pressure spraying tank.
4. Mix one part Evaporator Coil Cleaner to four parts water.
5. Spray Evaporator Coil Cleaner solution into coils and allow approximately a ten minute contact time for best results. Condensate will rinse coils. Rinse filters with clean water.

Caution: Avoid contact with eyes, skin and clothing. This product contains organic cleaners and inorganic dispersants. Wear goggles and protective clothing. Do not breath mist. For external contact, flush with water for 10 minutes. If taken internally, drink large amounts of water, followed with milk of magnesia, beaten eggs, or vegetable oil. Call a physician immediately. KEEP OUT OF THE REACH OF CHILDREN.
